Earnings Conference Call Details

Executive Summary

During the third quarter of 2024, the Company's revenue increased by 9.7% compared to the same period last year. This growth is mainly explained by the increase in GLA by more than 27,000 sqm compared to September 2023, resulting from progress in the execution of the Company's Investment Plan. Furthermore, a partial recovery in consumer spending in Chile boosted the sale of tenants (+9.2% YoY), contributing to increased income from variable rent. The rise in visitors at the Company's shopping centers (+10.0%) also contributed to the double-digit growth in revenues from both parking facilities and Sky Costanera.

On the other hand, the Company's Adjusted EBITDA increased by 13.0% over the same quarter in 2023, reaching CLP 80,495 million, resulting in an Adjusted EBITDA margin of 93.7% (+274 bps YoY). This EBITDA improvement was due to the increase in revenues, partially offset by higher expenses related to enabling spaces for lease and the strengthening of internal teams.

Meanwhile, in 3Q24 Net Income reached CLP 64,329 million YoY (+21.6% YoY), driven by better operational results and a positive impact from asset revaluation. Excluding this effect, Net Income decreased by 2.1% YoY, mainly explained by exchange rate fluctuations and negative adjustments compared to 3Q23.

As of September 2024, the average duration of lease contracts was 10.5 years. The Company's financial position remains solid, with a Cash Position of CLP 212,813 million (+82.8% vs December 2023) and Net Leverage at 1.7 times.

Message From the CEO Sebastián Bellocchio

During this period, we have continued to make significant progress on our Investment Plan, focusing on expansion, remodeling, and addition of new leasable space. At the same

time, we are adapting spaces to meet the needs of both our tenants and our customers, strengthening our +27,000 sqm position as a market benchmark. These efforts have contributed to a revenue growth of nearly 10% compared to 3Q23. Excluding an extraordinary positive impact in

vs 3Q23 YoY

September 2023, revenue grew even more strongly (+13.2% YoY).

On the 5th level of Cenco Costanera, we will expand our gastronomic offerings by more than 5,000 sqm, exceeding 18,000 sqm in total. At Cenco Florida, in turn, we continue to enhance and grow new spaces for gastronomy and entertainment, in addition to creating new green areas for our clients. In 2Q24, the Vitacura Shopping Center obtained approval for the IMIV (permit related to road mitigations), and in October, the DIA proposal was submitted to obtain the Environmental Impact Permit. Finally, works in Limonar (Cali – Colombia) continue progressing, and in Peru, the second phase of La Molina is advancing as planned, with both traffic and tenant sales improving since the launch of its first phase in 2023.

33 MM Visits

Our malls in Chile, being Assets with an attractive commercial proposal and great location, have successfully captured **increased tourist traffic this quarter**, particularly benefiting Cenco Osorno, Cenco Temuco, Cenco Costanera and Cenco Alto Las Condes, where visits grew by an average of 10.8% compared to 4.3% +10.0% vs 3Q23 for the rest of our malls in Chile. Similarly, visits to Mirador Sky Costanera increased by 8.4% YoY. This increase in visitors across our

shopping centers not only boosted activity but has also positively impacted variable income, with higher tenant sales (+9.2%).

The strength and resilience of our business has not only been reflected in our better operational and financial performance, but also in the recent risk rating upgrade by Humphreys from "AA+" to "AAA", the highest rating among the leading shopping center operators in Chile.

I would like to close by thanking the entire Cenco Malls team. Each of these achievements has been made possible by the effort and commitment of those who are part of this Company. We will continue to lead with determination and innovation, launching new initiatives to further strengthen our market position.

• Provisional Dividend Payment

At the Board of Directors meeting held on October 28, 2024, it was agreed to distribute a provisional dividend to shareholders of CLP 85 per share, charged against the profits for fiscal year 2024. This dividend will be paid starting November 20, 2024.

Humphreys Upgrades Cenco Malls Risk Rating to "AAA"

Humphreys has upgraded Cenco Malls' bond line ratings from "AA+" to "AAA", in recognition of the Company increased revenue and high profitability levels. In its statement, the national rating agency highlighted the rise in occupancy rate at Cenco Malls, the addition of new leasable space and the profitability of existing areas.

Early Citizen Participation

With strong community interest, Cenco Malls completed the voluntary Early Citizen Participation (PCT) for its new mall in Vitacura. Over four months, the Company engaged with local municipalities and communities (Vitacura, Huechuraba and Providencia) presenting project details and incorporating community feedback into the project's developments. Led by Company leaders, this initiative included virtual reality displays and informational panels

Largest Bicycle Party in Chile

More than 14,000 people participated in Festibike, an active entertainment and wellness experience celebrating the inauguration of the new Costanera Bike. Families, friends, neighbors and team members arrived on bicycles, scooters, skateboards and on foot to join the caravans and activities that surprised them with BMX tricks, live music and much more.

Sky Costanera Recognized with the SERNATUR Award

At the FESTITUR 2024 Tourism Fair, Sky Costanera was honored with the SERNATUR award as a prominent tourism destination in Chile. This recognition also highlights its social commitment through the Study Tour Program, which offers students from various cities free access to experience Chile's capital from the highest viewpoint in South America.

1st Place in Social Innovation by the Chamber of Shopping Centers

Sky Costanera, in collaboration with CONAF, earned first place in social innovation for its initiative to install smart cameras with thermal sensors for early forest fire detection, covering eight communes in the Metropolitan Region and more than 18,000 hectares.

2.2 Investment Plan Key Progress

Approval of IMIV (Road Permit), and Submission of **Environmental Impact Statement for the Vitacura Proiect**

The Company received approval for the Road Impact Mitigation Report (IMIV) for its project in Vitacura. In addition, the Environmental Impact Statement (DIA) was submitted, strengthened through Early Participation, developed together with the community involved in the project.

Gastronomic Project at Cenco Costanera

This quarter, Cenco Costanera continued to consolidate its gastronomic proposal on the 5th level of the shopping center, with an updated look and feel for the restaurant area, the launch of the new "Winter Garten" space, and progress in setting up two new restaurant spaces (+2,500 sqm each), which will position Cenco Costanera one of the most prominent gastronomic destinations in the country.

Progress at Cenco Florida

Cenco Florida completed renovations to the former Johnson store, creating subdivided spaces to accommodate new leasable areas for tenants.

Costanera Center Gallery

This quarter, work began on transforming spaces on the first level of the Paris store, creating over 20 new commercial units in a gallery of over 2,000 sqm, accessible from Vitacura Avenue in Santiago.

2.3 Sustainability Progress

Planet

1st Shopping Center to Promote Organic Waste Management with Gastronomic Tenants (Chile)

As part of its environmental commitment and innovative initiatives, the Company promoted the recycling of organic waste to convert it into compost from the Cenco Alto Las Condes gastronomic area. In September, more than 4,000 kilos of organic waste were converted into compost, resulting in over 500 bags of free compost distributed to clients and tenants.

Efficient Use of Rainwater for Terraces and Parking Lot Maintenance at Cenco Altos del Prado (Colombia)

A new initiative for the responsible use of water was launched at Cenco Altos del Prado, by reusing rainwater to clean terraces, parking lots and façades to optimize cleaning and maintenance processes.

The consolidated occupancy rate declined 15 bps YoY, primarily due to an increase in GLA of over 27,000 sqm in the past 12 months, responding to the demand for larger spaces by tenants. In Peru, the opening of Cenco La Molina led to an increase in GLA, bringing the occupancy rate to 89.5%, due to it still being in its maturation stage. In Colombia, the occupancy rate increased by 117 bps.

8 MM

Visits in Cenco Costanera

+6.7% vs 3023

Visits increased by 10.0% compared to the third guarter of 2023, driven by the recovery of tourism in Chile and improved consumer spending. Notably, Cenco Costanera and Cenco Alto Las Condes in Santiago, as well as Cenco Temuco and Cenco Osorno in other regions, showed strong performance. Along the same lines, Cenco Arequipa also contributed significantly to the increase in visitor traffic in Peru.

Tenant sales rose by 9.2% YoY, reflecting a recovery in commercial activity in Chile and a gradual return to pre-pandemic consumption levels. The resilience of tenant sales is further demonstrated by sales growth in each tenant category compared to 3Q24.

Chile

Revenue increased by 9.3% compared to 3Q23, largely driven by the addition of nearly 20,000 sqm of new GLA, with an increased occupancy rate to 99.0% (+5 bps YoY) over the same period. Cenco Costanera expanded its GLA by over 15,000 sqm, resulting in a 6.7% increase in visits. Similarly, Cenco Osorno and Cenco Temuco experienced improvements due to increased tourism and recent renovations, with double digit growth in visits compared to 3Q23 (+18.9% and 16.7%, respectively).

Adjusted EBITDA rose by 13.0% YoY, with an Adjusted EBITDA Margin of 309 bps, reaching 94.7%. This profitability boost was due to increased revenue and enhanced operational efficiency. Additionally, a one-off effect positively impacted the EBITDA margin this quarter. Excluding one-off effects from both 3Q23 and 3Q24, EBITDA growth would have been 11.5%.

¹The occupancy rate for Chile and the consolidated total reflect the occupancy rate of shopping centers, excluding the square meters designated for offices.

<u>Peru</u>

Revenues increased by 22.0% in PEN and 30.5% in CLP compared to 3Q23, explained by the increase in GLA YoY (+9,469 sqm), higher revenues from Cenco La Molina, (+70 stores already operating), and growth at Cenco Arequipa in both visitor traffic (+26.6% YoY) and tenant sales (+22.6% YoY).

Adjusted EBITDA rose by 21.6% in local currency and 30.1% in CLP YoY, mainly explained by the increased revenue compared to the same quarter in 2023.

Colombia

In 3Q24, revenues increased by 6.5% in COP and 14.9% in CLP compared to 3Q23. This growth in local currency is explained by the expansion of the occupancy rate by 117 bps and higher foot traffic in shopping centers.

Adjusted EBITDA decreased by 21.7% in COP and 15.5% in CLP YoY. The above is explained by a contraction in the gross margin by 279 bps and increased expenses from retroactive charges associated with back-office expenses.

Chile (CLP)	7.7%	5.7%
Peru (PEN)	-0.6%	9.1%
Colombia (COP)	1.6%	17.3%

SSS grew by 5.2% in Chile, explained by a resurgence in consumer spending, especially among tenants associated with discretionary spending. Conversely, SSS in Peru and Colombia declined, affected by the politicaleconomic contexts in each country and their impact on consumption.

SSR in Chile rose by 7.7%. In Peru, the decline in SSR is due to reduced variable income from third parties. In Colombia, SSR growth of 1.6% was driven by contract adjustments for inflation.

Occupancy Cost	3Q24	3Q23
Chile	8.8%	8.7%
Peru	8.9%	7.6%
Colombia	7.4%	6.2%
Consolidated	8.8%	8.6%

In 3Q24, the Occupancy Cost remained below 9% in all three countries, making the lowest in the industry for Colombia and Chile. At a consolidated level, the occupancy cost reached 8.8%, an increase of 18 bps compared to the same period last year.

⁵ Figures are presented in local currencies (CLP, PEN and COP, respectively). In UF, SSS in Chile would be 0.8%, while SSR would be 3.3%.

Assets

As of September 30, 2024, total assets reached CLP 4,296,979 million, an increase of CLP 149,283 million compared to December 2023, driven by growth in both Current Assets for CLP 71,835 million and Non-Current Assets for CLP 77,448 million.

- The increase in Current Assets compared to December 2023 was primarily due to a rise of CLP 96,364 million in Cash Position, explained by the cash flow from business operations.
- Regarding Non-Current Assets, the increase compared to December 2023 is explained by an increase of CLP 88,446 million in Investment Properties as a result of a 2.2% revaluation, partially offset by a decrease in CLP 10,382 million in Deferred Tax Assets.

Liabilities

As of September 30, 2024, total liabilities increased by CLP 72,836 million from December 2023, due to rises in both Current Liabilities for CLP 41,532 million and Non-Current Liabilities for CLP 31,304 million.

- The growth in Current Liabilities was driven by an increase of CLP 48,167 million in Other current non-financial liabilities due to a higher recognition of minimum dividends payable, partially offset by a decrease of CLP 4,160 million in Current Tax Liabilities.
- Non-Current Liabilities increased due to the increase by CLP 22,463 million in Other Non-Current Financial Liabilities impacted by the increase in the UF, as well as an of CLP 11.568 million in Deferred Tax Liabilities.

Equity

Total equity as of September 2024 increased by CLP 76,447 million compared to December 2023. This is explained by an increase in Retained Earnings of CLP 87,058 million.

Operating Activities

Compared to September 2023, cash flow from operating activities increased by 5.7%, as a result of higher collections from the provision of services totaling CLP 14,611 million, explained by better operational performance. Additionally, income taxes payments decreased by CLP 6,869 million.

Investment Activities

Cash flow from investment activities rose by CLP 65,944 million compared to September 2023, primarily due to an increase of CLP 58,932 million in Other cash inflows (outflows) from higher income generated in 2024 from the sale of mutual funds. Capex for the period was CLP 35,974 million, compared to CLP 44,266 million as of September 2023.

Financing Activities

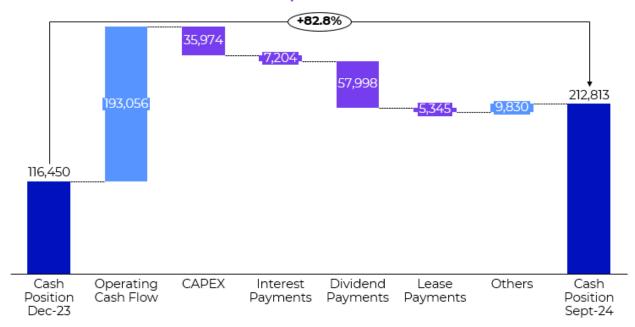

As of September 30, 2024, the net flow from financing activities was CLP 70,548 (29.1% greater negative balance compared to September 2023). This is largely explained by an increased disbursement of CLP 15,352 million in Dividends Paid.

8. Market Risks

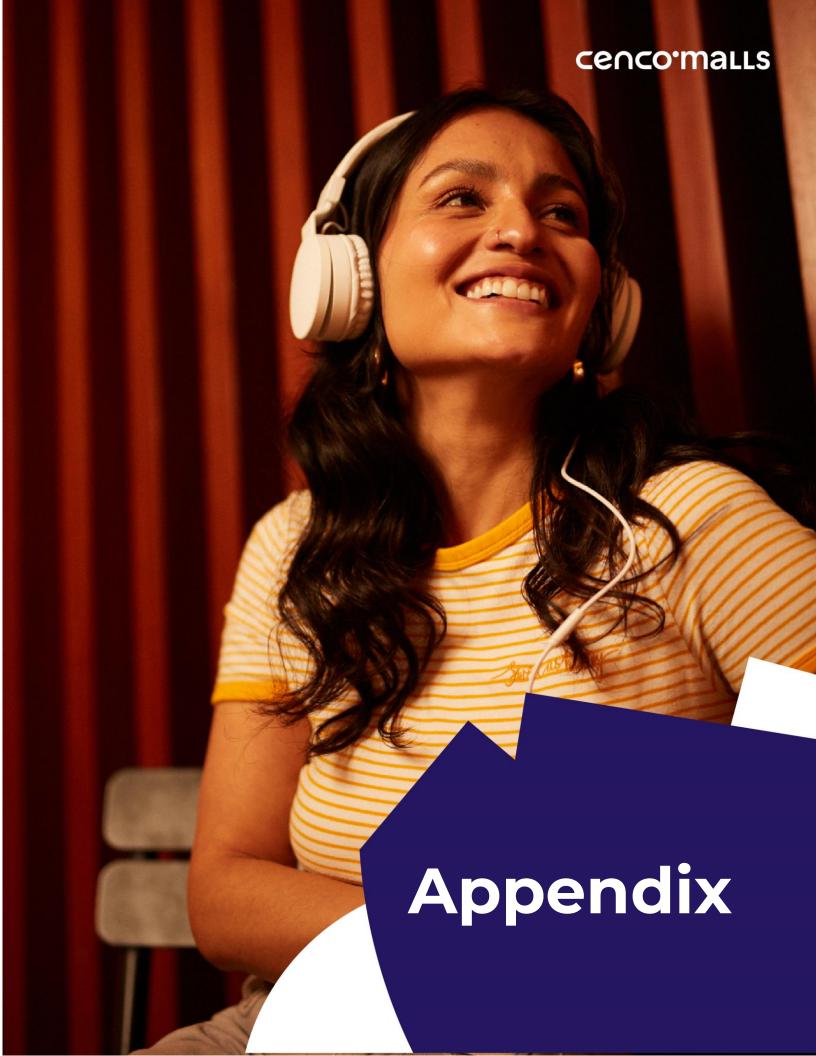

In an uncertain environment with constant industry changes, effective risk management is crucial for the long-term sustainability of companies. To this end, the Company has implemented a Corporate Risk Management Policy that supports a comprehensive "Methodological Framework for Risk Management", covering economic, environmental and social risks.

To implement these policies and methodologies, Cencosud Shopping S.A. has established an "Internal Audit, Internal Control, and Risk Management Unit", which reports directly to the Board of Directors and works alongside General Management to ensure the Risk Management model is effectively implemented. This unit plays a key role in the control environment of the Company's governance and planning structure, adhering to best global and local practices, including those recommended by the Dow Jones Sustainability Index (DJSI) and CMF's General Applicability Rule No.461.

For more details, please refer to the 2023 Integrated Annual Report available on the Company's website:
